About The Pablove Foundation

Helping kids with cancer **live**
a **love**-filled life today
and a cancer-free **life** tomorrow

The Pablove Foundation is named after Pablo Thraikill Castelaz, the son of Jo Ann Thraikill and Jeff Castelaz and the little brother of Grady Gallagher. Pablo was six years old when he lost his valiant yearlong battle with bilateral Wilms Tumor, a rare form of childhood cancer. Imbued with his spirit and inspired by his strength, Pablove is dedicated to the daily, global fight against childhood cancer and the suffering that comes in its wake.

We fight on in order to amplify one simple message: **kids get cancer too.**

What We Do

The mission of The Pablove Foundation is to:

INVEST in under-funded, cutting-edge pediatric cancer research

In the past four years, our **Childhood Cancer Research Grants** totaled \$900,000 in funding for innovative research projects, and this year will surpass \$1 Million funded.

INSPIRE cancer families through education

Our annual **Childhood Cancer Symposiums** bring together medical professionals and patient families from around the country. Each year, the country's leading experts present on critical subjects like rare pediatric cancers and their long-term effects.

IMPROVE the lives of children living with cancer through the arts

Our **Pablove Shutterbugs** program teaches children living with cancer to develop their creative voice through the art of photography. To date, this program has reached over 600 children in the United States.
